

APS CURRICULUM – GEOGRAPHY	How does weather change around the world?		YEAR B, AUTUMN TERM	
	Knowledge, Skills and understanding breakdown			
YEAR 1 and 2	Year 1			
National Curriculum Links	Geographical Enquiry	Physical Geography	Human Geography	Geographical Knowledge
Ge1/1.3a: Identify seasonal and daily weather patterns in the UK and the location of hot and cold areas of the world in relation to the equator and the North and South poles Ge1/1.3b: Use Basic geographical vocabulary to refer to key physical features and human features Ge1/1.4a: Use maps and globes to identify the UK and its counties, continents and oceans	• Can they answer questions about the weather? • Can they keep a weather chart? • Can they answer some questions using different resources such as books, the internet, and atlases?	• Can they explain the main hot and cold places? • Can they explain how the weather changes with each season?	• Can they begin to explain why they would wear different clothes at different times of the year? • Can they say something about the people who live in hot and cold places? • Can they explain what they might wear if they lived in a very hot or vert cold place?	• Can they point out where the equator, north and south poles on a globe or atlas?
Ge1/1.4b: Use simple compass directions (N,S,E,W) and locational/directional language to describe location of features Pupils should be taught about: • different types of weather and climate, season and symbology • location of hot and cold places, and their weather patterns • daily observations of weather in Appleby using basic equipment	Year 1 (More Challenging)			
	• Can they answer questions using a weather chart? • Can they make plausible predictions about what the weather may be like later in the day or tomorrow?	• Can they identify places which have contrasts in weather?	• Can identify places which have different seasons to the UK?	• Can they identify the equator, north and south pole on different maps, atlases and plans?

CORE Learning / Sticky Knowledge	Year 2			
	Geographical Enquiry	Physical Geography	Human Geography	Geographical Knowledge
- Weather types, symbols and seasons - North and South poles and the Equator - Comparing different weather from varying places in the UK	- Can they label a diagram or photo using some geographical words? - Can they find out about a localities weather through observation? - Can they make a weather chart?	- Can they identify symbols used to describe weather? - Can they explain why mountains may display different weather to their valleys e.g. within the lake district	Can they explain how weather affects where people live?	- Can they name the main cities of England, Scotland, Wales and Ireland? - Can they identify where they live on a map of the UK?
Local Geography Links				
- Helm Bar Wind: UK's only named wind - Observation of weather conditions locally and regionally - Observation of daily weather in school grounds	Year 2 (More Challenging)			
	- Can they make inferences by looking at a weather chart? - Can they make plausible predictions about what the weather may be like in different parts of the world?	- Can they use symbols to predict the weather? - Can they predict the differences in weather between valleys and mountains	Can they identify how the weather affects people's jobs?	Can they identify where they live on an aerial view, or plan?
